

Dear Client,

Now more than ever, Canadians are united to keep our communities safe. While the current COVID-19 pandemic has changed life as we know it for the time being, we remain strong in our efforts to persevere through these uncertain times. We all play a part in keeping each other safe and healthy, and we know that we will only come out of this stronger. With so much news and information being shared daily, we would like to offer an update to our community.

Earlier this week, Ontario and other provinces announced states of emergency. Premier Ford declared the temporary closure of non-essential businesses and released the [Ontario Government's List of Essential Businesses](#). **Powersource electric is deemed a company that provides service to essential businesses so we will continue to support our homeowners and small and medium sized businesses during this time period..**
